

Town of Fountain Hills Presents

“JUST IN FROM SATURN”

(Exploring Saturn with the Cassini Spacecraft)

**Thursday, May 5
2:00 - 3:00 p.m.**

Pre-registration is required - Course

#1795

Free for 2016 members and \$5.00 fee non-member

Presentation is at the Fountain Hills Community Center

About the Presentation: The Cassini spacecraft has been returning stunningly beautiful images and undreamt of new discoveries since it arrived at Saturn in 2004, and the mission team has received funding to continue operating the spacecraft until 2017. Find out how 19 countries cooperated to build the two-ton spacecraft, how we got it safely to Saturn, what incredible things Cassini has told us so far about the planet, its rings and moons, and learn about the plans for the risky maneuvers planned during Cassini's final orbits when it will pass inside Saturn's rings!

About the Presenter: Join NASA Solar System Ambassador Ted Blank for an in-depth look at all the latest news “just in” from Saturn. Ted has been a NASA Solar System Ambassador volunteer for four years. He is a past-president of the New Hampshire Astronomical Society and a co-founder of the Fountain Hills Astronomy Club.

Stop by the Community Center Mon. – Fri. 9 a.m. to 4 p.m. to reserve your seat.
